Manager's Office

This week, City Commissioners and staff attended the Bay Future Annual Meeting at the DoubleTree in Bay City. The Annual Meeting included a panel of three speakers; Wilkinson Minerals, Michigan Sugar Company, and SK Siltron CSS, all of whom have committed to making large investments in Bay County within the next few years. Panelists discussed their investments, why they chose Bay County to invest in, and what the public can expect to see from them within the next few years, amongst other items.

Focused around the \$580M capital investments since the start of 2021, Bay Future sought to recognize those businesses who have helped make that investment into our community possible. With a closing

statement of thanks to those that continue to support Bay Future, Inc., and a promise to continue to advocate and identify funding for small businesses impacted by the pandemic, the City was grateful to be in attendance as we continue to look forward to the year of growth ahead.

Building DE&I Talent through Coaching, Mentorship & People Leadership – SVSU

City Manager Muscott, along with Vanessa Guerra, Saginaw County Clerk; Mary Ann Ackerman, City of Frankenmuth Mayor; and Shawn Wilson, SVSU, served on a panel at Saginaw Valley State University this past week, discussing our leadership journeys, empowerment and how to identify a mentor. The panel presented to SVSU faculty and staff who are currently enrolled in the SVSU Leadership Development program. John Kaczynski served as the moderator.

Electric Department

Electric Department Quarterly Newsletter

The Bay City Electric Light & Power Spring 2022 Quarterly Newsletter is being mailed out with customer utility bills beginning this week and is available to be viewed on-line at www.baycityenergysmart.org/news.html.

The highlights in this issue include:

- Solar installations
- Reliability statistics
- Energy saving tips and rebates
- Critical Care Program

Human Resources

Let's Talk #TeamBayCity Career Expo

This week City Hall hosted the Let's Talk #TeamBayCity Career Expo. We estimate 30 to 40 people joined us to learn more about career opportunities in the City, as well as chat with current City workers. We had several City Departments and Divisions take part in the effort, including representatives from Human Resources, Public Safety, Bay City Electric Light & Power, the Wastewater Treatment Plant, Information Technology, and the Department of Public Works.

We had four people turn in applications and we encouraged many more to apply online. In addition, we had a few people who had previously applied online stop in to meet us.

Thank you to everyone who pitched in to make this possible.

Public Safety

Fire Operations Division:

On Monday, April 18th, Joseph Feinauer and Tyler Cathel were both sworn in as Firefighters for the Bay City Department of Public Safety, Fire Operations Division.

Firefighter Feinauer is a 2005 graduate of Bay City Western High School and has been a Firefighter for the last 16 years. He resides in Bay City with his wife and two children.

Firefighter Cathel is a 2010 graduate of Bad Axe High School, and he has been a Firefighter for the last ten years. He resides in Essexville with his wife.

Public Works

DPW Building – Project Update

Construction has started in both the existing building and on site. Demolition of the south office area is almost complete, and reconstruction will begin by the end of the month. In the high bay portion of the existing building, demolition is ongoing, underground electrical, and plumbing installation is ongoing, and construction on the masonry walls has begun. Site work has begun, with topsoil being stripped and new sand being hauled in. Overall, the project is slightly ahead of schedule and off to a good start!
