CITY OF BAY CITY LICENSE & FEE SCHEDULE

PUBLIC WORKS – WATER DISTRIBUTION & METERING CONTINUED

*The cost of one meter, up to and including 1-1/2", is included in the tap-in fee. The cost of any meter larger than 1-1/2" shall be paid for by the user prior to installation and shall become City property upon installation. Any additional meters, regardless of size, shall be paid for by the user prior to installation, and shall become City property upon installation.

**An "end-user connection" shall be defined as a connection to the water distribution system which serves no more than one (1) building or structure containing no more than eight (8) defined dwelling or commercial units. If a proposed development would contain more end-user connections off a single-tap than is allowed by this schedule, each additional end-user connection, or its equivalent as calculated in terms of number of units served, shall require the developer/applicant to pay an additional 1" tap-in fee. The developer/applicant may opt to pay for a larger service diameter tap-in fee (which allows a greater number of end-user connections) if the result is a total calculated tap-in fee less than the one for the service-diameter used.

***These "tap-in" fees are applicable to new residential, commercial, and industrial developments. The re-connection or "tap-in" of existing locations (abandoned, then redeveloped) shall equal such same tap-in rates (6/25/16).

NOTE: Unless expressly specified otherwise by valid, contractual agreement, or unless precluded by local ordinance and/or State or Federal law or regulation, the tap-in fees established herein for developments within the corporate limits of the City of Bay City served by water and/or sanitary sewer service shall apply equally to those developments outside the corporate limits of the City who connect to, and receive service from, either the water or sanitary sewer distribution and transmission system of the City.

Out-City areas must provide installation of their own service taps.

METER INSTALLATION CHARGES (3/14/13):

FIRE HYDRANTS, FIRE PROTECTION AND SPRINKLER SYSTEM

SECTION 106-435

Tap-in fees for dedicated fire-suppression lines, for either new or existing commercial or industrial developments, shall equal water line tap-in rates multiplied by a factor of one-half (.5), up to a maximum rate of \$4,000 for any one (1) dedicated connection.

In addition, for each fire protection and sprinkler system connection on private property, the rate per annum shall be:

Cost	Meter Size
\$20	2" size
\$40	3" size
\$60	4" size
\$80	6" size
\$100	8" size and larger

HYDRANT METER RENTAL DEPOSITS (4/6/21)

SECTION 106-436 & 106-438

The deposit fee is equal to the current Water Meter Installation Charges.

NOTE: Fee for frozen meters will be the same as for a new installation.

Current water consumption rates shall be applied to all hydrant meters without exception. Minimum charge is monthly rate listed. No pro-rating monthly charge for rentals less than one month.

Monthly Sewer Customer Charges will not be assessed to hydrant meters

Hydrant rental for special events shall follow same rules above including deposits, rates and fees
